S.M.D. Hot Tweezer
989

Features

- **Hot Tweezer attachment for Soldering station Model 937**
- For Soldering & De-soldering of S.M.D. Components
- 50 W Ceramic Heater (25W x 2) has a long lifetime
- Twin Tube Heating Contacts the component directly without affecting the adjacent components in densely populated PCBs.
- Remove Surface Mount Resistors, Capacitors & SOP Elements Safely
- Light handle is suitable for long time of use
- Precise, Stable, Rapid Heating & Instant Temp., Compensation
- Various types of Tips are available
- ESD safe design

ISO 9001

HEAVY DUTY

Specifications :

Max. Power	:	50 W (25 W x 2 : 24 V AC)
Temperature Range	:	200 ºC ~ 400 ºC
Tip to Ground Resistance	:	< 2 Ω
Tip to Ground Potential	:	< 2 mV
Cord Length	:	186 mm
Weight	:	98 gms. Approx.

** All Specifications & appearances are subject to change without prior notice*
