VAR TECH®
Quality • Reliability • Economy

Lead Free Soldering Station
202 D

Features

- **Flagship Lead free Soldering station**
- Digital Display & Temp., Control
- Electromagnetic Heating element
- Large power, Sensor closer to tip
- Very high accuracy
- Micro computer Digital PID temperature control
- Short circuit protection, Overheating protection, Overpowering protection
- Power output will not vary in case of voltage fluctuation
- Calibrate temperature digitally and easily
- Temperature warning facility with alarm
- Digital Temperature calibration
- Password lock & Auto sleep function
- **Unparalleled Quality, Reliability & Economy**
- **Various types of Tips are available**

HEAVY DUTY

ISO 9001

Specifications :

Temperature Range	:	80 ºC ~ 480 ºC
Temperature Stability	:	± 2 ºC (Stationary air, no load)
Output Voltage / Freq.	:	AC 36 V, 400 KHz
Max. Power	:	80 W
Tip to Ground Resistance	:	< 2 Ω
Tip to Ground Potential	:	< 2 mV
Heating element	:	Electromagnetic Element
Handle wire	:	1.4 Mtrs.
Handle Length (W/o Power cord)	:	180 mm
Unit's Power Consumption	:	220 V, 90W
Max Ambient Temperature	:	40 ºC
Dimensions	:	15.5 * 7.8 * 12 cm
Weight	:	1.2 Kg Approx.

** All Specifications & appearances are subject to change without prior notice*
